General Conditions

ARTICLE 1. LEGAL FRAMEWORK GOVERNING THE POLICY

This insurance contract is governed by the provisions set forth in the General, Specific, and Special Conditions, their Appendices and Supplements, the Individual Insurance Certificate, where applicable, and, unless otherwise agreed in the manner most beneficial for the Insured Party, by the Insurance Contract Act (Law 50/1980 of October 8), the Insurance and Reinsurance Entity Organization, Supervision and Solvency Act (Law 20/2015 of July 14) and the implementing regulations thereof.

MAPFRE ESPAÑA, Compañía de Seguros y Reaseguros, S.A., hereinafter referred to as the Insurance Company, has its registered office in Spain, and its insurance activity is subject to the supervision and control of the General Directorate for Insurance and Pension Funds.

ARTICLE 2. PURPOSE AND SCOPE OF THE INSURANCE

Within the limits and conditions stipulated in the policy, and upon payment of the premium and the deductible by the Insured Party in each case, the Insurance Company assumes the following coverages:

a) Dental Coverage.
b) Daily compensation for Hospitalization for any reason deriving from illness or accident.

General Conditions for Each Guarantee

A) DENTAL COVERAGE

ARTICLE 3. PURPOSE AND SCOPE OF THE GUARANTEE

The purpose of this coverage is to guarantee a series of basic dental services, which can be used at no cost, and other specific services at an agreed price, all in accordance with the stipulations in these Conditions.

This coverage does not include professional fees, hospital expenses or anesthesia when hospital care is required to provide the covered procedures.

1. Description of the services

The complete list of benefits, the list of approved specialists, rules for use, as well as the maximum prices scale for the services covered by this guarantee are those specified in the table of procedures and agreed prices that the Insurance Company provides in this contract.

2. Agreed prices

The Insured Party must pay a deductible in the cost of certain services by paying the amount that, under the concept of the agreed price, is indicated in the COVERED PROCEDURES section.

The amounts are prices established solely for the year in effect, and the Insurance Company reserves the right, following notification to the Insured Party, to amend them as necessary and to apply agreed prices to benefits for which none had been stipulated for the following periods of validity.

The Insured Party shall use preferentially the list of dentists from their province of residence, which is provided in the current Medical Care Guide. However, it is possible to access any professional or center on the MAPFRE ESPAÑA list of national dentists.

3. Provision of dental services

The Insured Party may freely choose the healthcare professional from those appearing in the Medical Care Guide that the Insurance Company offers nationwide. The specialist chosen shall carry out the appropriate examination and provide a dental care estimate that must be signed by both parties.

The insured party shall directly pay the amounts agreed corresponding to the procedures included in the dental estimate. The amount paid must coincide with the amount indicated in the COVERED PROCEDURES section. The specialist shall provide the Insured Party with proof of all the procedures performed and receipts for the agreed prices paid.

4. Guarantee and quality

All materials used in the treatments will be guaranteed for one year and shall comply with ISO or ADA type quality standards. In the case of implants, the guarantee is extended to 5 years, as long as there is a commitment by the Insured Party to follow the instructions of the Specialist.

The Insured Party must receive from the dentist a Dental Estimate prior to treatment, which must be signed by both parties.

In the event of claims sent to MAPFRE ESPAÑA, this document must be submitted at our offices.

ARTICLE 4. EXCLUDED RISKS

1. Any dental services ordered by doctors not approved by MAPFRE ESPAÑA are excluded, unless authorized in advance and in writing by the Company.

ARTICLE 5. DENTAL CARD

The Insurance Company shall provide the Insured Parties a "dental card," which does not contain health information and is solely for identification, with validity limited by periods of time.

The Insured Party must identify themselves when requesting any services using the "dental card". However, when the doctor or center providing the service deems it necessary, they may also require a national identification card.

Each healthcare procedure provided will require a single pass of the card, which may be performed in paper format or with a credit card terminal.

The "dental card" is personal and non-transferable, and the Insurance Company reserves the right to take applicable legal actions against the fraudulent use thereof. In case of theft, robbery or loss, the Insured Party is obliged to communicate this circumstance to the Company as soon as possible; in addition, the Insured Party must return the card at the end of the insurance period.

B) COMPENSATION FOR HOSPITALIZATION FOR ANY REASON

ARTICLE 6. PURPOSE AND SCOPE OF THE GUARANTEE

Under this coverage, the Insurance Company is obligated to pay the daily compensation indicated in these Conditions if, as a result of an illness or accident during the duration of the policy that is covered by this guarantee, the Insured Party must be hospitalized for more than 24 hours.

Likewise, the company covers only lump sum cash benefits, which do not necessarily have to be related to the cost of the healthcare assistance used. The beneficiary may use the compensation received for any purpose they see fit.

1. Payment of Compensation

The compensation shall be paid for the duration of the Insured Party's hospitalization as a patient, up to a maximum of 365 days, except for the following special cases, in which case the maximum compensation period per claimable event, Insured Party and year shall be as indicated:

▸ **Psychiatric illness and psychological disorders: 20 days maximum.**

If during the 12-month period following the hospitalization of the Insured Party for which compensation was paid for this coverage the Insured Party is once again hospitalized for the same reason or for reasons related to the previous hospitalization, the new hospitalization will be considered, for all intents and purposes, an extension of the first one. When the period between the two hospitalizations is greater than 12 months, the second hospitalization will be considered a new hospitalization period.

ARTICLE 7. BONUS FOR ADMISSION IN DIFFERENT PROVINCE

If the Insured Party must be hospitalized in a hospital located in a province different than their regular place of residence, the capital guaranteed shall be paid with a 50% increase.

For these purposes, the Insured Party's regular place of residence shall be as indicated in the policy for the Policyholder.

ARTICLE 8. DOCUMENTATION

The Insured Party shall certify to the Insurance Company all circumstances of the claimable event by submitting the following documentation:

- Compensation request form completed in full and signed.
- Hospitalization report or medical record indicating the date of admission and release, the origin and background of the illness or accident that led to the hospitalization, as well as the evolution of the Insured Party.
- In all cases in which it is not possible to assess and process the claim with the information provided initially by the Insured Party, the Insurance Company may request new medical reports and conduct any investigations and verifications necessary to that end.

ARTICLE 9. CLAIMABLE EVENTS

Obligations of the Insured Party in the case of a claimable event:

1. Alleviate the consequences of the claimable event using all available resources for a quick recovery of the Insured Party. Non-compliance with this obligation with the clear intention to harm or cheat the Insurance Company shall release the Company from any obligation arising from the claim.

2. Notify the Insurance Company of the claimable event within a maximum of seven days of becoming aware of it and present the documentation specified in the General Conditions for each coverage.
3. Allow and facilitate the Insurance Company in all actions of verification, follow-up and control with regard to claims made, which require determining whether or not payment of the requested benefit is warranted.
4. The Insured Party must authorize, submit to, and collaborate in any exams, check-ups, or medical tests considered necessary by the Insurance Company.
5. Data deriving from these actions shall be kept in strict confidentiality and used solely for the purpose for which they were collected.
6. Unfounded refusal by the Insured Party, or non-compliance with these duties, shall be understood to be a refusal of any benefit due them, releasing the Insurance Company from payment of the benefit.

ARTICLE 10. PAYMENT OF COMPENSATIONS

1. Once the Insurance Company has properly received the required documentation specified in these Conditions, the Insurance Company shall pay the Insured Party the corresponding compensation.

2. The corresponding compensation shall be calculated based on the amount insured on the date on which the Insured Party's hospitalization began. The calculation shall not take into consideration the annual reappraisals of the insured sums or coverage improvements that occur following that date.

The maximum amount of the daily compensation to be paid by the Insurance Company shall be as indicated in the Specific Conditions, even when the Insured Party has suffered multiple illnesses simultaneously, during a maximum of 365 days, minus the deductible days when agreed.

3. The compensations will be paid via bank transfer to the account indicated by the Insured Party.

4. If, within a period of three months from the occurrence of the claimable event, the Insurance Company has not complied with the benefit without justifiable cause or due to reasons that may be attributed to the Insurance Company, the compensation shall be increased by an annual interest at the legal interest rate at the time it is accrued, increased by 50%. Two years from the time of the claimable event, the annual interest from that day on may not be less than 20%.

ARTICLE 11. EXCLUDED RISKS

Policy coverages exclude the risks indicated below:

a) Illnesses, defects, and malformations already existing on the date the insurance was taken out, which were known to the Insured Party and not declared in the corresponding health questionnaire.

b) Accidents that occurred before this policy entered into force.

c) Sterilizations for both sexes, in vitro fertilization, artificial insemination, and infertility studies or treatments.

d) Weight loss treatments, sleep or rest cures and psychological treatments.

e) Participation by the Insured Party in bets, challenges or fights, unless acting in the latter case in legitimate self-defense.

f) Suicide and attempted suicide, as well as self-harm.

g) Acts of war (whether or not war was declared), earthquakes, hurricanes, volcanic eruptions, radioactive leaks and other events that occur of an extraordinary or catastrophic nature.

h) Psychiatric illnesses or psychological disorders that do not require hospitalization.

i) Use by the Insured Party of drugs not medically prescribed, drinking alcohol, drug addiction and alcoholism.

j) Refraction surgery (correction of myopy, hypermetropy, astigmatism, etc.), and presbyopia surgery.

k) Procedures and/or treatments for aesthetic reasons, unless the plastic or reconstructive surgery or treatment is necessary as a result of an accident covered by the policy.

l) Officially declared epidemics.

m) Use, as passenger or crew member, of any mode of air navigation not authorized for public passenger transportation.

n) Playing any sport professionally and taking part, professionally or as an amateur, in aerial activities, scuba diving, boxing, mountain climbing, vehicle races, including training, spelunking, bullfighting, runnings of the bulls, and any other type of high-risk sport.

ñ) Voluntary termination of pregnancy, as well as any compensation related to such termination.

These exclusions include the indicated illness, accident, or event, as well as the consequences, complications, relapses, specific treatments, and

other consequences, including claimable events caused by, or resulting from, all of the above.

General Rules

ARTICLE 12. CONTRACT CONDITIONS

1. This policy is entered into based on the statements made by the Policyholder and/or the Insured Parties, contained in the insurance application and questionnaire provided by the Insurance Company for contracting, all of which determining the acceptance of risk and the calculation of the corresponding premium.
2. If the contents of the policy differs from the insurance proposition or agreed clauses, the policyholder may call on the Insurance Company within a month following delivery of the policy to remedy the existing difference. If no request is made within this period, the provisions of the policy shall apply.
3. In the event of withheld or inaccurate information in the statements of the Policyholder and/or the Insured Parties that have influenced the risk assessment, the following consequences shall apply:

   a) If the Insurance Company is aware of them before the claimable event occurs, the Company may rescind the contract by statement addressed to the Policy Holder within the period of one month, starting from the knowledge of the withholding or inaccuracy by the Policyholder. The Insurance Company shall be responsible for the premiums for the current period at the time this statement is made, except in the case of fraud or gross negligence by it.

   b) If the Insurance Company is aware of withheld or inexact information, once the claimable event occurs, the benefit will be reduced proportionally between the agreed premium and the premium that would have applied if the true extent of the risk had been known.

      If the Policyholder or the Insured Party acted fraudulently or in gross negligence, the Insurance Company shall be released from the obligation to pay for the benefit.

   c) In the event of inaccurate indication of the age of the Insured Party, the Insurance Company can refute the contract only if the true age of the Insured Party at the time of its entry into force exceeds the admission limits established by the Insurance Company. Otherwise, if as a result of an inaccurate statement related to age, the premium paid is lower than what should have been paid, the benefit shall be reduced in the proportion of the premium paid. If, on the contrary, the premium paid is higher than the one that should have been paid,

the Insurance Company is obliged to return the excess of the received premiums, interest-free.

ARTICLE 13. EXECUTION, EFFECTIVE DATE, AND DURATION OF THE CONTRACT

1. The insurance will enter into force on the day and time indicated in the Specific Conditions of the policy, provided that, unless agreed otherwise, the Insurance Company has received payment of the first premium bill.

2. The insurance policy is stipulated by the period indicated in the Specific Conditions and its expiration shall be extended automatically for annual periods, unless:

a) Either of the parties objects to the extension by providing written notice thereof to the other party, at least one month before the end of the current period when it is the Policyholder that objects to the extension, or two months when the Insurance Company objects.

b) The policyholder opposes the extension in the manner set forth in article 15 "Payment of the premium", section c), item 2.

3. The insurance coverage shall automatically cease on the date of termination of the policy. From that moment on, the Insured Party will not be entitled to subsequent healthcare benefits even if they are caused by illnesses or accidents prior to the aforementioned date of termination.

4. People over the age of 65 may not be insured.

5. In any case, the insurance shall be terminated and all coverages shall end automatically:

a) When the Insured Party changes residence outside of Spain.

The contract shall be terminated from the date on which the event that gave rise to said termination has occurred.

The Insured Party must immediately notify the Insurance Company when any of the circumstance expressed arises in order to return any premium that may apply.

If the Policyholder or Insured Party has failed to make their notification and a claim is filed, the Insurance Company will be released from its obligation.

6. The coverage of the policy shall be valid provided the primary residence of the Insured Party is located in Spain. If the Insured Party moves outside Spain, all coverage under the policy shall be automatically terminated.

ARTICLE 13A. TAKING OUT INSURANCE REMOTELY

In the event insurance is taken out remotely, the provisions set forth in this article shall apply. Insurance is deemed to be taken out remotely when only remote communication means are used for negotiating and entering into the contract, without the physical and simultaneous presence of the provider and the consumer, consisting in the use of telematic and electronic means, telephone, fax, or other similar means.

In the event insurance is taken out remotely, the insurance will enter into force at midnight the day after the Policyholder gave their consent, unless another date is selected by express agreement. In any case, the effective date will be included in the Specific Conditions of the policy.

Notwithstanding the indications of the preceding paragraphs, the contract and amendments or additions thereto must be formalized in writing. The Insurance Company is obliged to deliver the insurance policy to the Policyholder. The Policyholder must return a signed copy of the Specific Conditions of the policy to the Insurance Company, as well as the supporting documents of the circumstances that comprise the risk.

When the policyholder is a consumer, i.e., a natural person acting with a purpose other than that of a commercial or professional activity, they shall have a period of 14 calendar days to withdraw from the remote contract, without indicating reasons and without any penalty, provided there has been no claim.

This period will start from the day the policy is signed or from the date on which the Insurance Company delivers the policy.

The Policyholder must notify the Insurance Company through a procedure that allows proof of notice in any manner permitted by Law, and shall be obliged to pay the corresponding premium up to the time of the withdrawal. In the event that the premium has been paid beforehand, the Insurance Company shall refund said amount to the Policyholder within a maximum period of 30 calendar days, minus the part corresponding to the period of time that the contract was in force prior to withdrawal.

ARTICLE 14. WAITING PERIODS

The policy coverages shall take effect following a period of ONE MONTH from the effective date of the Insured Party's addition to the policy, except due to emergency medical prescription.

ARTICLE 15. PAYMENT OF PREMIUMS

A) GENERAL RULES

1. The Policyholder is required to pay the premiums according to the conditions stipulated in the policy.

2. Premium bills must be paid in full and in advance of the yearly coverage period by the Policyholder on their corresponding due dates. However, a fractioned payment of the premium may be agreed to twice-yearly, quarterly or monthly, applying the corresponding surcharge. These installments and the corresponding surcharge will be stated in the Specific Conditions of the policy.

3. Payment of premiums shall be made at the residence of the Policyholder or as agreed in the Specific Conditions of the Policy.

4. The premium is indivisible and shall be owed to the Insurance Company in its entirety for the duration of the contract agreed upon, even in the event that payment in installments is agreed to. Should the contract or any of its extensions be terminated before the agreed expiry date, the Insurance Company is not required to reimburse the Policyholder for any amount of the premium paid in whole by the latter, except in those cases required by law.

5. The Insurance Company is bound only by the bills issued by the Company. The payment by the Policyholder of the premium to the Agent or the Broker shall not be understood to have been made to the Insurance Company, unless the Agent or the Broker delivers the premium bill issued by the Insurance Company to the Policyholder.

B) INITIAL PREMIUM

1. The initial premium is the one stated in the Specific Conditions corresponding to the initial period of coverage indicated therein.

2. If, for reasons attributable to the Policyholder, the first premium has not been paid, with the contract having been signed or upon its maturity, the Insurance Company has the right to terminate the contract or to demand the payment of the premium through enforcement.

3. Unless otherwise agreed, if the premium has not been paid before there is a claimable event, the Insurance Company shall be released from its obligation.

C) SUBSEQUENT PREMIUMS

1. In the event of implied extension of the contract, the premium for the subsequent periods will be calculated by applying the premium rates which, based on technical and actuarial criteria, the Insurance Company

has established at any given time, also taking into account any modifications of coverages or causes of risk aggravation or reduction that may have occurred, in accordance with the provisions of these General Conditions, the ages of the Insured Parties, the accident rate recorded in preceding insurance periods.

2. The Insurance Company shall inform the Policyholder of the premium amount for the new coverage period, at least two months before the current contract expires, by sending the appropriate notice of bill collection to the address indicated for such purpose or, if this has not been stipulated, to the Policyholder's usual address, in accordance with Article 18 of these General Conditions for communications.

3. Non-payment of one of the subsequent premiums will cause the suspension of the coverage one month after its due date. If a claimable event occurs during that month, the Insurance Company may deduct the amount of the outstanding premium for the current period from the compensation amount.

Claimable events occurring when coverage is suspended shall not be compensated.

4. If the Insurance Company does not demand the payment within six months of the due date of the premium, it will be understood that the contract is terminated. The Insurance Company, when the contract is suspended, shall only require payment of the premium for the period underway, including the premium fraction corresponding to the period in which the coverage was suspended, operating as a penalization for late payment. If the contract had not been resolved, the coverage will be effective again at midnight on the day on which the Policyholder pays the premium.

D) PAYING IN INSTALLMENTS

1. Payment of the annual premium by installment may be agreed upon in accordance with the provisions established in the Specific Conditions of the contract.

2. If the Policyholder fails to pay one of the bills in which the payment of the premium was split, the Company may require the Policyholder to pay all outstanding bills due. Payment of such must be made within a maximum period of thirty days following the date on which the Policyholder receives notification from the Company by reliable means; if this payment is not made, the insurance shall be suspended one month after the first unpaid premium installment was due.

3. Notwithstanding the provisions of the preceding section and while the coverage has not yet been suspended, **in the event of a claim, the Company may deduct the amount of the premium installments due and unpaid by the Policyholder from the compensation.**

ARTICLE 16. RISK MODIFICATION

1. The Policyholder or the Insured Party shall, during the course of the contract, inform the Insurance Company as soon as possible, of all circumstances that increase the risk, such as a change of family address or a change of professional activity.

The Policy Holder or the Insured Party is under no obligation to communicate a change of circumstances related to the state of health of the Insured Party, which in no case shall be deemed to be an increase of the risk.

2. The Insurance Company may or may not choose to accept the increased risk and the following rules shall apply:

a) In event of acceptance, the Insurance Company shall provide the policyholder with the corresponding contract modification proposal within a period of two months from the date of notification of the risk increase.

   The Policyholder shall have 15 days following receipt of this proposal to accept or reject it. Should the Policyholder reject it or fail to respond, the Insurance Company may, after said period has elapsed, rescind the contract after sending prior notice thereof to the Policyholder and providing a new response deadline of fifteen days, after which, and within the following eight days, it will notify the Policyholder of the final termination.

b) If the Insurance Company rejects the modification of the risk, it may rescind the contract, notifying the Policyholder within a period of one month following the date the increase was disclosed, and the contract shall be terminated from the date on which said modification was made.

3. If the Policyholder or Insured Party has failed to make their declaration and a claim is filed, the Insurance Company will be released from its obligation if the Policyholder or Insured Party have acted in bad faith. Otherwise, the Insurance Company's obligation to pay out benefits shall be reduced proportionally to the difference between the agreed premium and the premium that would have been applied if the true scope of the risk had been known.

4. During the term of the contract, the Policyholder or the Insured party may inform the Insurance Company of all circumstances that diminish the risk and are of such a nature that if they had been known by the Company at the time the contract was drawn up, it would have entered into it under more favorable conditions.

In this case, at the end of the current period covered by the premium, the Insurance Company must reduce future premium amounts by the corresponding amount, with the Policyholder otherwise conferred the right to terminate the contract and be reimbursed the difference between the premium paid and that which would have been applicable, from the moment of notification of the risk reduction.

ARTICLE 17. LOSS OR DESTRUCTION OF THE POLICY

In case of loss of the policy, the Insurance Company, by request of the Policyholder or of the Beneficiary, shall be obligated to issue a copy or duplicate of the same, which shall be equally effective as the original. The request must be made in writing, explaining the circumstances of the case, with the requester agreeing to return the original policy should it be found.

ARTICLE 18. COMMUNICATIONS

1. Communications from the Policyholder, the Insured Party or the Beneficiary shall only be considered to be valid when addressed in writing to the Insurance Company.

If the insurance policy is taken out remotely, when the contract has been executed by the mutual verbal consent of the parties, all communication relating to declarations of risk factors and other information required to underwrite and issue the policy or its endorsements shall be made verbally.

Each party mutually authorizes the other to record all telephone conversations held for such purposes.

2. All communications made between the Policyholder, Insured Party, or Beneficiary and the Insurance Company by reason of this Policy may be made and shall be valid, in addition to communications by letter, by any other written means, including email, SMS, and fax to the address provided both by the Insurance Company and the Policyholder, whether at the time the Policy was taken out or any time thereafter, and the Policyholder must advise the Insurance Company as soon as possible of any change of address, phone number, fax number, or email address.

3. Communication sent to the Insurance Company by an insurance broker on behalf of the Policyholder shall have the same effect as if they had been sent by the Policyholder, except where otherwise indicated by the latter.

ARTICLE 19. EXPIRATION AND JURISDICTION

EXPIRATION

The actions arising from this contract shall expire in a period of 5 years. The statute of limitations shall begin from the date when the actions were undertaken.

CLAIMS AND JURISDICTION

This contract is governed by the laws of Spain and, within this system, the competent judge for hearing actions arising from it shall be that of the residence of the Insured Party.

Procedure for submitting grievances and complaints.

In accordance with the established financial service user protection regulations, in the event of a dispute regarding the interpretation or execution of this insurance contract, the Policyholder, Insured Party, the beneficiaries, and the affected third parties, or their rightful claimants, may submit a written complaint or grievance to the Complaints Division of MAPFRE by post (Apartado de Correos 281, 28220 Majadahonda, Madrid) or online at www.mapfre.es in accordance with the Regulations Governing the Resolution of Conflicts between MAPFRE Group Companies and the Users of its Financial Services, which can be found on the Website "mapfre.es," and the summarizing rules of conduct, which are provided to the Policyholder together with this contract. You are likewise informed that if you do not agree with the resolution of your claim, in cases in which the intervention of the Insured Party's Ombudsman is relevant in accordance with our rules, you may request that it be sent to said Ombudsman.

Complaints and grievances may also be submitted by clients of the Insurance Company, as well as by their rightful claimants, regarding the performance of its insurance agents and bancassurance operators, pursuant to the aforementioned Regulation and procedure.

The complaint may be submitted on paper or by computer, electronic, or telematic media, in line with the applicable legislation and also by phone at 900 205 009.

If the complaint or grievance is dismissed or a period of two months has elapsed from the date it was submitted, the user may submit the complaint or grievance to the Complaints Service of the General Directorate of Insurance and Pension Funds (Paseo de la Castellana 44, 28046, Madrid; website: www.dgsfp.mineco.es); to that end, upon request, we can provide the corresponding form.

Only with the express agreement of the parties may disputes arising from the interpretation and fulfillment of this insurance contract be submitted to the judgment of mediators or arbitrators in accordance with current legislation.

Definitions

FOR THE PURPOSES OF THIS POLICY, THE FOLLOWING DEFINITIONS APPLY:

- **Accidental:** Bodily injury due to a sudden violent cause, external and beyond the control of the Insured Party. Cardiovascular diseases and injuries related to these conditions are not considered accidents.
- **Beneficiary:** The person entitled by law to receive, if applicable, the benefit derived from the policy. In this insurance modality, this right corresponds to the Insured Party.

- **Claimable event:** The occurrence of any event subject to compensation by applying any of the coverages taken out in the policy. The set of damages, effects, and consequences arising from one event shall be considered as deriving from a single claimable event.
- **Congenital disorder:** Any health alteration at birth, whether it is hereditary or contracted in the mother's womb.
- **Doctor/Physician:** Person who is legally authorized to practice medicine.
- **Emergency surgery:** That in which a delay in its performance could pose serious and immediate danger to the life of the person or their functional capacity.
- **Hospitalization:** Entails the admission of the patient and their stay in the hospital for a minimum of 24 hours.
- **Hospital or Hospital Center:** Any public or private establishment legally authorized to treat illness or bodily injury, equipped with the means for performing diagnoses, surgery, and hospitalization lasting longer than 24 hours. These centers may also have special hospitalization units and an outpatient hospital.

  For purposes of the policy, hotels, nursing homes or convalescent homes, health resorts, facilities devoted primarily to the hospitalization and/or treatment of chronic diseases, treatment of drug addiction or alcoholism, and similar institutions are not considered hospitals.
- **Illness or injury:** Any involuntary health alteration whose diagnosed by a doctor who is legally authorized to exercise as such.

  Illnesses that are not covered by this policy include, but are not limited to: infertility, weight loss treatments, sleep or rest cures, psychological treatments, aesthetic surgery and/or treatments, congenital defects or conditions, alcoholism and drug addiction.
- **Insurance Company:** MAPFRE ESPAÑA DE SEGUROS Y REASEGUROS, S.A., issuing company of this policy, which assumes the purchased risk coverage pursuant to the conditions of the policy, by means of the collection of the premium.
- **Insured Party:** The physical person to whom the risk covered applies.
- **Insured Policyholder:** Each one of the Insured Parties that meets the conditions for being covered by the insurance policy and who, in the absence of the Policyholder, assume the obligations arising from the contract.
- **Insured sum:** The maximum limit of compensation payable in each case by the Insurance Company. The amount of the insured sums for each coverage taken out shall be set out in the Specific Conditions of the policy.
- **Overexertion:** Bodily injury deriving from extreme muscle contraction to overcome a resistance or to fulfill a natural, yet difficult and/or laborious function.

- **Policy:** Group of documents containing the regulatory conditions of the insurance.
- **Policyholder:** Individual or legal entity that, jointly with the Insurance Company, enters into this contract and to which the rights and obligations arising from it correspond, except those that due to their nature should be fulfilled by the Insured Party.
- **Pre-existing illness, defect, or malformation:** An alteration that already existed before taking out the insurance, that normally would have been perceived by signs or symptoms, regardless of medical diagnosis.
- **Premium:** Price of the insurance accrued for annual periods, whose invoice shall also include the applicable surcharges and taxes.
- **Surgery:** Any operation by incision or another method of internal operation carried out by an authorized healthcare professional for therapeutic purposes.

  The following documents comprise the policy: the insurance application, the health questionnaire, the general, special, and specific conditions that customize the risk, and the endorsements or appendices added to complete or to modify it.
- **Waiting period:** Period of time from the effective date of the insurance stipulated by MAPFRE ESPAÑA for each policy during which the policy coverage does not enter into force.
