1. PREAMBLE

This Global Relocation Policy (hereinafter referred to as Policy) purpose is to give definitions to Ciklum (hereinafter referred to as Company) appellations, types of relocations and their usage terms and conditions. Since Ciklum is an international company, this Policy is to be used and followed by all Delivery, Sales and Co-working Locations by both Ciklumers and hire-to-relocate Candidates.

To initiate relocation of a Ciklumer or hire-to-relocate Candidate, there must be a business need, which is to be set by Company's Leadership Board, specific location General Manager, Delivery Manager or Client. The business need is defined either as a Business Continuity Plan requirement, need of a Company to develop and expand its presence on the new market, lack of talent there or proximity to the Client.

For the relocation to be possible there must be an approved relocation position or vacancy available in the new location. Ciklumer should have proven to be a consistent top performer with a high potential of positive impact on the performance and growth of the Company.

2. DEFINITIONS

Ciklumer is anIndividual who has cooperation relations with Ciklum LLC entities.

Relocation is a process of moving a Ciklumer or Candidate from one country to another with employment purposes for more than 12 consecutive months.

Relocating person is a Ciklumer or hire-to-relocate Candidate, whom the Relocation process is being applied to.

Assignment (temporary assignment) is the movement of a Ciklumer or Candidate to a new location with work purpose for up to 3 consecutive months.

Assignee is a person with respect to whom an assignment is made.

Family members are to be limited to one spouse and minor child/-ren, including adopted.

Repatriation is Assignee's return to the home country after an assignment in the host country.

Home country is the country where an Employee/Candidate is currently employed/located.

Host country is the country to which Relocation is taking place.

Initial application is the application for a work/residence permit submitted for the first time.

Extension is a work/residence permit application to extend a stay in the host country after the initial application.

GRM - Global Relocation Manager.

GM - Global Relocation (department).

3. TEMPORARY ASSIGNMENT

This Policy regulates relocations (both international and domestic) starting from 3 months or longer. Transfers up to 3 months are Assignments and are to be regulated by Global Travel and Entertainment Policy (TR-010).

4. ELIGIBILITY PRE-ASSESSMENT

Immigration eligibility pre-assessment is to be initiated by a recruiter for external Candidate after successful passing of technical interview or HR Partner for Ciklumer using a respective Jira ticket – '*Eligibility check for relocation*'.

A preliminary immigration eligibility check is to be conducted by the Global Relocation Manager by indicating if Candidate's/Ciklumer's Diploma, prospect position, salary, etc. are in line with host country immigration legislation and specific permit requirements.

osts for immigration eligibility pre-assessment are covered by the Recruitment budget of the Company for an external Candidate or by Relocation department.

5. RELOCATION INITIATION

Relocation can be initiated by using designated ticket types in Jira by a Ciklumer's People Partner or Candidate's recruiter. There are two respective Jira tickets for relocation initiation, which are to be used consecutively: *'Relocation Cost Calculation' and 'Initiate Relocation Case'.* Once the request is received it is being processed by all responsible parties.

The detailed relocation process is reflected in Appendix A (internal Ciklumers) and B (external Candidates).

6. COSTS COVERAGE FOR CIKLUMERS

6.1. Relocation costs are covered by the Company. Immigration vendor's fees, government fees and logistics (accommodation and flight tickets/car mileage) are to be covered by the Relocation department/Client.

6.2. Unless otherwise agreed, Ciklumers are entitled to:

- Standard package - with a job level up to 5 (including)
- Standard+ package - with a job level 6 and higher

Please see Appendices C and D for Relocation Coverage details.

6.3. If Ciklumer and his/her family members need to travel to another city/country for visa application, such expenses as car fuel, bus/train/plane tickets, hotel stay, PCR/Antigen test are also covered. The duration of such a trip is to be as short as it is needed for visa application submission. Means of travel and hotel in the visa application city is to be set by a Travel manager as the most cost-effective option.

6.4. Family members are to be declared by the Relocating person before the relocation process is initiated. All the cases of declaring a family member after relocation initiation are not to be covered under this Relocation Policy.

6.5. If during first permit validity Relocating person has a newborn baby in the host country, support with residence permit application is to be provided to the newborn. Any consultations and support for local registering of a child are not provided.

6.6. If Ciklumer cancels relocation, all the expenses spent at the moment of cancellation are to be covered by Ciklumer according to the Relocation Agreement. If relocation is canceled by Company then the expenses borne at that moment are to be covered by the unit/department, which requested the relocation.

6.7. If Ciklumer exits Company during the first 12 months (24 months for Spain) after signing the contract in the host country (after obtaining a residence permit - only for Poland), he/she is to reimburse the amount spent on the relocation according to the Relocation Agreements he/she signed and legislation of the country, where he/she signed the Agreements (both home and host countries).

6.8. All the relocation benefits are non-refundable and not interchangeable. The benefits do not have cash value.

7. COSTS COVERAGE FOR CANDIDATES

7.1. Relocation costs: government fees, immigration vendor's fees and logistics (accommodation and flight tickets/car mileage) are covered by the Recruitment budget of the Company.

The costs needed to process documents or obtain new ones during the first year of work in the company are also covered by the Recruitment budget of the Company.

7.2. Unless otherwise agreed, candidates are entitled to:

- Hire-to-relocate Standard package

Please see Appendices E for Relocation Coverage details.

7.3. If Candidate and his/her family members need to travel to another city/country for visa application, such expenses as car fuel, bus/train/plane tickets, hotel stay, PCR/Antigen test are also covered. The duration of such a trip is to be as short as it is needed for visa application submission.

7.4. Family members are to be declared by the Relocating person before the relocation process is initiated. All the cases of declaring a family member after relocation initiation are not to be covered under this Relocation Policy.

7.5. If during first permit validity Relocating person has a newborn baby in the host country, support with residence permit application is to be provided to the newborn. Any consultations and support for local registering of a child are not provided.

7.6. If a candidate or company cancels relocation, all the expenses spent at the moment of cancellation are to be covered by the Recruitment budget of the Company.

7.7. If a Candidate exits Company during the first 12 months (24 months for Spain) after signing the contract in the host country (after obtaining a residence permit - only for Poland), he/she is to reimburse the amount spent on the relocation according to the legislation of the country, where he/she signed the Agreements (both home and host countries).

7.8. All the relocation benefits are reimbursed based on actual spent within the given limit and cannot be changed for cash allowance.

7.9. Reimbursement is done after relocation and signing employment agreement.

8. WORK VISA/PERMIT APPLICATION

All required visas and work permits are to be obtained for a Relocating person and family members (if any) before traveling to the host country in line with this Policy and with the rules it sets for costs coverage.

Any existing contract in the home country is to be terminated and a new contract is to be signed in the host country. The vacation balance is not transferred from the home to the host country.

It is the Relocating person's obligation to provide all required supporting documents in accordance with the list of documents provided by GRM depending on the host country.

GRM starts the relocation process only after receiving approval in the Navision system for relocation, signing the offer and relocation agreement by Ciklumer or the Candidate.

Relocating person should also assure that (s)he and his/her family members have travel passports, which remain valid for the period required by the immigration regulations of the host country and at least two consecutive blank pages on one list for visa stamps.

It is crucial to abide by the immigration law of the host country as non-compliance can entail serious consequences defined by applicable legislation in the host country, for example fine, deportation, imprisonment, etc.

Immigration decisions on work permit or visa granting formalities are not controlled by Ciklum and fully depend on the immigration laws/rules of the host country and Relocating person's compliance with applicable regulations. Therefore, there can be cases when immigration rules prevent relocation or cause early termination of it. In case it is impossible to obtain the required work permits/visas, relocation cannot be processed.

8.1 Initial application

Each case of an international relocation is elaborated separately, and based on the host country and Relocating person's profile. The best available option of relocation will be offered in accordance with the immigration law of the host country.

Typically, the following options are offered by most countries:

- Transfer for a highly skilled specialist
- Intracompany transfer.

Usually, initial work permits/visas are obtained for the maximum period of validity set by the law of the host country. Work permits/visas can be obtained for a shorter period if requested by Budget Holder and permitted by applicable law.

8.2 Extension

Ciklum takes care of work permit/visa extensions for a Relocating person in case there is still a business need to extend an assignment and if that is permitted by applicable law. Before the procedure of extension is initiated, costs related to extension (government fees, immigration vendor's fees, others related to extension as – insurance, translations, notarization) must be approved by a relevant Budget Holder within Ciklum and are to be covered by the Relocation department/Client.

In case there are any changes to initial conditions offered to a Relocating person during the assignment in the host country (remuneration, position, location), it is required to provide appropriate information to People Partner, HR Manager or GRM once they come into force and/or before extension processing.

8.3 Work permit/visa rejection

Decisions on work permit or visa granting are made by the responsible government body in the host country and are not influenced by Ciklum.

In case the denial in work permit/visa issuance is received, the case will be studied separately to analyze the reason (e.g. inappropriate employment conditions, Relocating person's insufficient qualification, lack of Ciklum's relevant business activity, etc.). There could be several scenarios for further actions to be undertaken, depending on the reason of denial:

1. Applying for another type of work permit if available under the host country immigration rules and if consistent with Ciklum business needs.
2. Re-applying for the same type of work permit if it is allowed by the specific host country immigration regulations, and, if required, conditions of employment has been changed to be in line with the host country requirements.
3. Submitting an appeal if the reason of denial is considered unreasonable (e.g. there is a suggestion of the immigration vendor that the evidence provided for the work permit application has not been fully assessed by the authorized government body).
4. Postponing work permit application (e.g. if denial is obtained due to the Ciklum's lack of business purpose or certifications).

The above-mentioned list is non-exhaustive. Therefore, each denied application is studied separately and a decision on further actions is made on a case-by-case basis.

The costs needed to process documents or obtain new ones after work permit or visa rejection are covered by the Relocation department/Client.

9. INSURANCE

Relocating person must have travel insurance for the whole duration of the flight to a host country and up to the moment when he/she will have local state or corporate insurance. The insurance must meet current government requirements, i.e., coverage amount, COVID treatment, length, etc. This travel insurance is to be covered by the Relocation department/Client.

10. MEDICAL EXAMINATION

Certain countries require a medical examination before entering the host country (during the visa application process) or upon arrival to a host country. Relocating person and accompanying family members (if any) must be ready to undergo such examination in accordance with the host country's requirements at the time set by the law. Since it is a requirement of the visa application process, fees associated with medical examination will be covered by the Relocation department/Client.

11. TRAVEL ARRANGEMENTS

Travel arrangements are made only after all required work permits/visas are obtained. Once the visa/permit is approved, Global Mobility Manager creates a ticket with the Travel Department to proceed with ticket/-s and accommodation booking. Please note that the Travel department supports travel requests only for Relocating persons, whose trips are initiated either by Ciklum or Client.

Please refer to Ciklum Global Travel and Entertainment Policy for more information.

11.1 Flights

Relocating person will be offered flight options (economy class) within the package applied or budget approved by the Budget holder. Depending on the agreements, flight cost for accompanying family members can be also covered by Ciklumer's unit/Client. Relocating person will get 1 extra piece of luggage (additionally to one default, so 2 pieces of luggage in total) if it is within the pre-approved budget.

In case Relocating person prefers to travel by car, the cost of fuel can be covered after the arrival to the host country. Receipts scan for gasoline purchasing together with the expense report should be submitted for refund via Ciklum Service Desk. The cost covered must not be higher than the cost of flight available for the date of traveling (to be checked with GMM).

11.2 Temporary accommodation

One month of temporary accommodation starting from the relocation date (the first day of arrival to the host country) could be covered to allow Relocating person to find a permanent apartment in the host country. This should be pre-approved by the Budget holder.

If, for some reason, Relocating person doesn't manage to rent a permanent apartment during the first period of stay covered by Ciklum, all subsequent costs related to temporary apartment rent search/prolongation will be covered by Relocating person.

12. REIMBURSEMENT

12.1. There are cases when Ciklum is not allowed to provide funds required for work permits/visas issuance coverage directly, e.g. in a case of an external candidate who is not currently employed or otherwise contracted by any of Ciklum legal entities in the home country. In this case out of pocket expenses will be reimbursed once Relocating person arrives in the host country, signs an employment contract and opens a bank account. Major payments are to be done by Company, but there may occur some minor expenses, such as additional piece of baggage, insurance or fee for updated work permit, etc., which are to be made by Relocating person within approved expense limits.

12.2. To get a reimbursement specified above, Ciklumer will need to create a request in the Navision system, fill in an expense report, and provide receipts scan for cost accrued. Funds will be transferred to the Relocating person’s personal bank account in accordance with the payroll schedule.

12.3. All out-of-pocket expenses incurred by Relocating person must be reported during 30 calendar days after payment for Ciklumers and during 30 calendar days after hiring date for external Candidates. It is highly recommended to Relocating persons to gather all receipts with clear service description and price for reporting purposes.

12.4. Upon reimbursement of out-of-pocket expenses they are to be grossed-up in case these kinds of expenses are taxable in the host country.

13. REPATRIATION

Relocation department/Client covers transportation (flight tickets or car mileage) for Ciklumers back to the home country considering that Ciklumers continue cooperating with Ciklum and have worked in the host country of a Ciklum entity for at least 12 months (after obtaining a residence permit - only for Poland). Additionally one piece of luggage is covered for each family member. Repatriation condition is applicable to each Ciklumer unless oth erwise stated in the Relocation Agreement. If legislation of the host country sets repatriation as a requirement, then it is to be followed.

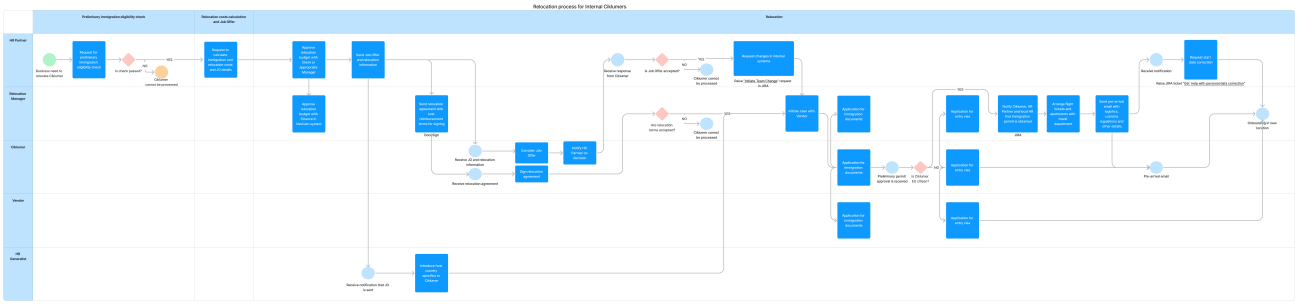
14. GLOBAL RELOCATION CONTACT

In case of questions or matters, which require in-depth consultation or additional details please contact our Senior Global Relocation Manager.

APPENDIX

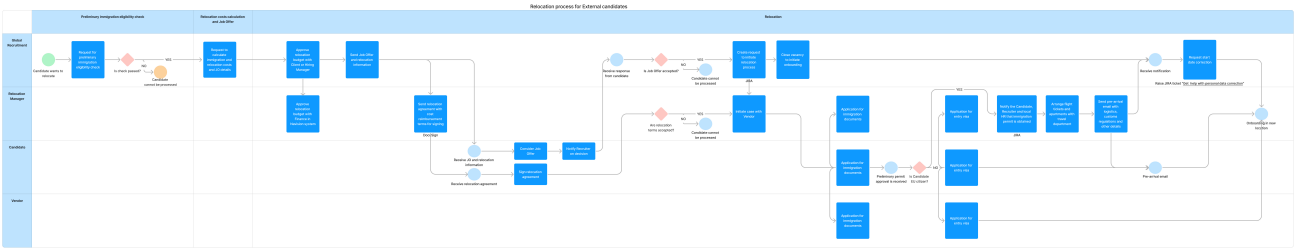
APPENDIX A

Relocation process map



APPENDIX B

Relocation process map



APPENDIX C

Relocation Coverage, Standard

Please find below the expenses that will be covered either by Ciklum or Client on Ciklumer's behalf during his/her and family members' relocation process.

Immigration and visa support:
1. Residence/work permit application and fees.
2. Entry visa application and fees.
3. Documents' legalization and translation if needed for application.
4. Documents' delivery for legalization/apostillisation.
